

Liam O. Farhangi

Highland, NY, 12528 | 845-418-7723 | Lfarhangi99@gmail.com | [LinkedIn](#)

EDUCATION

Stevens Institute of Technology

Bachelor of Engineering in Mechanical Engineering. GPA: 3.582 / 4.00

Hoboken, NJ

Expected 05/2028

WORK EXPERIENCE

Machine Shop Assistant

05/2025 – Present

Stevens Institute of Technology, Hoboken, NJ

- Machine stainless and aluminum parts for high-speed imaging use in a hypersonic wind tunnel.
- Designed, manufactured, and assembled 20+ parts for a biomass 3D printer motion system.
- Troubleshoot and repaired 30 3D printers, 3 mills, 2 lathes, and 2 welders.
- Consult with students and professors on Design for Manufacturability (DFM).

Head Teaching Assistant

09/2025 – Present

Stevens Institute of Technology, Hoboken, NJ

- Led 10+ machining labs on CNC mills and lathes, GD&T, CMM, metrology, welding, and cold forming.
- Expand and update content, style, and flow of 10+ lectures.
- Instruct in weekly lectures on manufacturing, measuring, and design theory/techniques.

Undergraduate Researcher (Metamaterials)

06/2025 – 08/2025

Stevens Institute of Technology, Hoboken, NJ

- Researched metamaterials, dispersion diagrams, evanescent waves, non-reciprocity, and vibrational dynamics in elastic materials.
- Co-designed a roton structure to restrict vibrational energy to a narrow frequency band.
- Assembled and calibrated a surface-mount machine.
- Compiled all research information into a poster and presented it to a panel of experts.

PROJECT EXPERIENCE

SAE BAJA Racing Team

04/2026 – Present

President, Hoboken, NJ

- Collaborate with all subteams to design, analyze, and manufacture 400+ parts.
- Present the club's objectives to 100+ students at least twice a semester.
- Spearheaded the acquisition of a \$100,000 fiber laser cutter; from initial proposal to machine delivery took 5 months.
- Create and distribute sponsorship packets to prospective collaborators for fundraising.
- Apply for grants, stipends, and subsidies for engineering organizations.
- Managed a \$30,000 semesterly budget to support manufacturing and club operations.

Brakes/Pedals Lead, Hoboken, NJ

05/2025 – 05/2026

- Led the design, research, manufacturing, and testing of 20+ parts for the braking system and pedals.
- Developed calculators to support informed pedal length, line pressure, caliper size, and master cylinder size.

Secretary of Recording, Hoboken, NJ

05/2025 – 04/2026

- Managed schedules, meeting agendas, and testing/competition logistics for 20+ members.

Drivetrain Guarding, Hoboken, NJ

01/2025 – 05/2025

- Researched, designed, manufactured, and welded aluminum drivetrain component guarding.

SKILLS

Software & Programming: SolidWorks(Model, FEA, CFD), Fusion 360(Model, CAM), OnShape(Model), MATLAB, C++, Python, Arduino, Bambu Studio, FireControl, DaVinci Resolve, Microsoft Office

Machining & Fabrication: 3D Printing, Milling, Turning, Welding (MIG, TIG, Stick), Laser/Plasma Cutting

Certifications: ClickSafety Welding Supervisor, PADI Scuba Diving
